

RIGHT SOLUTIONS. RIGHT NOW.

Eclipse is a clinical technology company that collaborates with you to deliver the RIGHT technology solutions and data management services to ensure your clinical trial is a success. We provide our clients with best-in-class technology and unparalleled customer service every step of the way.

Eclipse partners with Oracle Health Sciences to offer the industry's leading technology software, as well as a host of innovative technology solutions, clinical services and hands-on support.

Benefits of working with us:

- A single Oracle partner vendor for all of your technology needs, shortening build times and assuring consistency
- Certified partner expert implementation consultation
- Robust scalability, high-performance and accessibility with our world-class hosting facility
- Quick study design and setup with library features (include standard CDASH library)
- Online dashboards for real-time accessibility to your trial information
- Centralized reporting across all applications for a consistent and complete accounting of trial activity
- Robust ad-hoc reporting for user-driven queries
